Technical Solutions

F Series

Fiber laser cutting machine

F series

Intelligent and efficient, extremely fast cutting

Application industries: chassis cabinets, sheet metal manufacturing, elevator manufacturing, etc.

Technical Parameters ▶▶▶

No.	Name	Brand		
1	Laser Source	MAX 1500W		
2	Laser Cutting Head	Raytools BM110		
3	Body	Aore group		
4	Beam	Aore group 5th aviation aluminum beam		
5	X\Y-axis precision rails	Aore group		
6	X\Y-axis precision racks	Aore group		
7	X, Y, Z-axis servo motors and drivers	INOVANCE		
8	Reducer	KOFON		
9	Electrical components	CHNT/OMRON		
10	Electronic control cabinet	EU standard strong and weak electrical separation electronic control cabinet		
11	Control system	FSCUT2000E		
12	Pneumatic components	SMC		
13	Water chiller	HanLi		
14	Exhaust Smoke System	Exhaust Fan		
15	Air compressor			
16	Stabilizer

Main Specification						
NO.	Model	F3015-1500w				
1	Processing format	3050mm*1530mm				
2	X-axis stroke	1530mm				
3	Y-axis stroke	3050mm				
4	Z-axis stroke	100mm				
5	Positioning precision of X/ Y -axis	0.05mm				
6	Repositioning precision x/y-axis	0.03mm				
7	x/y Maximum move speed	115m/min				
8	The maximum acceleration of the X/Y axis	0.8G				
9	Dimension (Length×Width×Height)	4600*2800*2100mm				
10	Weight	2150kg				

Cutting Capacity

Material	1500W	2000W	3000W	6000W
Carbon steel	1-14	1-16	1-16	1-25
Stainless steel	1-4	1-6	1-8	1-16
Brass	1-2	1-3	1-5	1-10
Aluminum	1-3	1-4	1-4	1-14

Global Service, Rapid Response

Aore group always puts customers first, providing 24/7, uninterrupted, multilingual online communication services, with a global service team that responds quickly within 30 minutes; Establishing over 100 benchmark points globally, with 30 service points, 3 central-level spare parts warehouses, 15 A-level spare parts warehouses, and 20 B-evel spare parts warehouses.

Main Configuration ▶▶▶

- High conversion rate, low energy consumption
- Resistant to high feedback, strong protection
- High integration, minimal footprint

Auto focus laser head

- High intelligent, immediate awareness
- Resistant to interference, worry-free transmission
- Impact-resistant, zero maintenance
- Fully water-cooled, temperature constant

Laser cutting control system

- Quick response, high efficiency
- Versatile, easy to master
- Wide coverage, without barriers
- Personalized, emphasis on experience

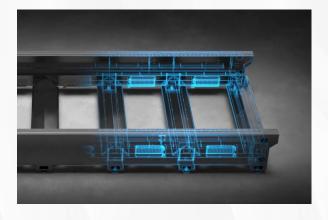

Main Configuration

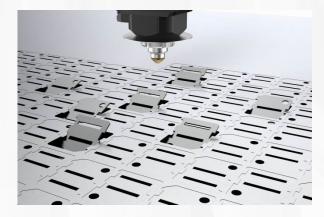

Water chiller

- Temperature control accuracy up to ±0.5°C
- With a variety of alarm protection functions
- Stable refrigeration and easy operation

Brand new double bed structure

- Designed for high-efficiency processing needs
- self-developed stopper plug-in double bed design
- No deformation in long-term cutting, ensuring stable equipment operation

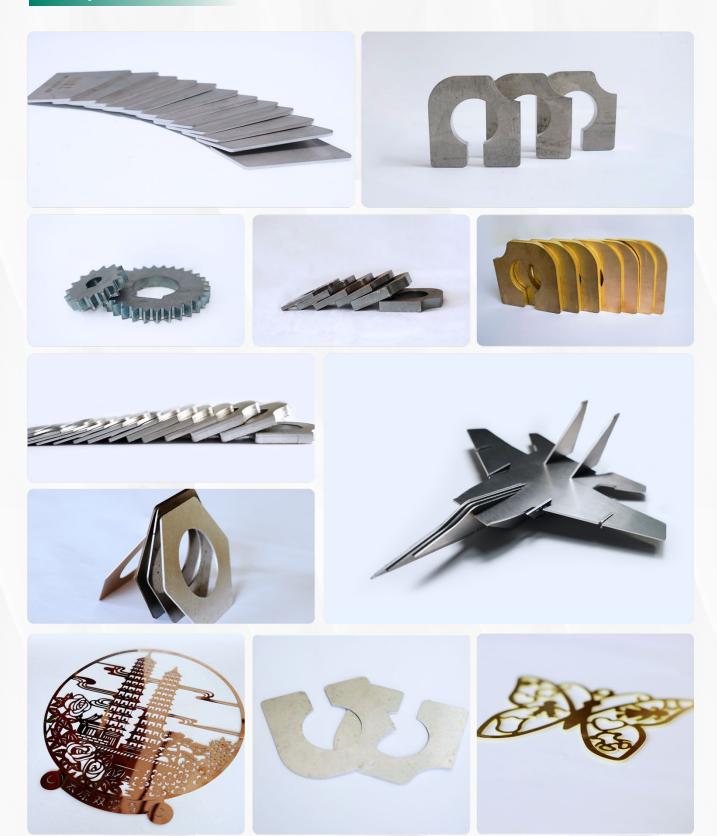

Dynamic collision sensing

Dynamic collision sensing detects potential warping of the sheet in advance, automatically avoids obstacles, and reduces maintenance costs for the laser head

About us ▶▶▶

SHANDONG AORE LASER EQUIPMENT CO., LTD. is a high-tech enterprise specializing in the research, development, production, sales, and service of laser application equipment. Its products and services are available in over 180 countries and regions, with main product categories including sheet metal laser cutting machines, tube laser cutting machines, sheet and tube integrated laser cutting machines, 3D laser cutting machines, and laser welding machines.

Strict in quality control flow

Bed Foot Installation

Rail Installation

Rack Installation

Beam Installation

Positioning Accuracy Inspection

Laser Power Meter Test

72h Machine Aging Test

Pack And Ship

Production lines

laser cutting

Groove welding

Stress annealing

Sandblasting

Roughing

Finishing
