HG Hugong Intecut-HT CREATION 3015 CNC Plasma (6533)

Steel structure table body with water bed.

Dual driving system on Y, track, pinion and gear system with linear guide-ways.

Separate driving system on X, track, pinion and gear system with Hiwin linear guide-ways.

Safety limit switches on X and Y tracks. Machine stops at the ends.

Automatic torch height controller on Z.

High speed and precision.

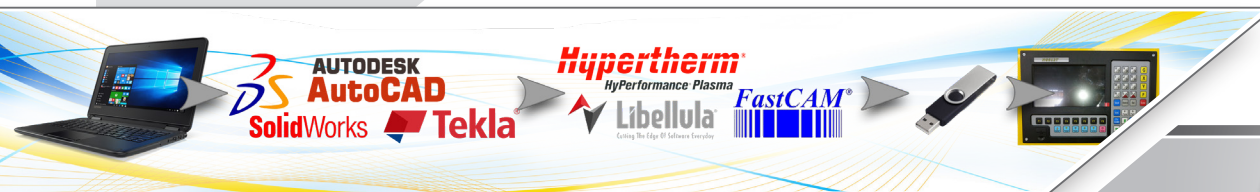

Cable chain on X and on Y to protect cables.

7" display, colourful interfaces.

44 Shapes in controller library.

Model:	Intecut-HT CREATION 3015
Power supply:	1 ph, 220V 50HZ (Customized)
Input capacity:	180W
Controller display:	Full color 7" LCD
Effective cutting width:	1500mm
Effective cutting length:	3000mm
Installation space:	2700mm * 4000mm
Cutting model:	Plasma
Plasma model:	Up to 105A, highly recommended HP
Nesting software:	Includes FastCAM (Optional: Libellula, Hypertherm)
CNC Control:	HG612 7" display
Max Positioning Speed:	6000 mm/min

Work-flow process

Plasma Power Source

Hypertherm Powermax Plasma

Powermax cut thicknesses
45xp (220V 12mm)/ 65 (12mm)/ 85 (16mm)/ 105 (22mm)
