

## THMT W11 - 6 x 2500 Motorised 3 Roll Plate Rolling Machine (10445)

The W11 series plate rolling machine has a mechanical 3-roller symmetrical system with motorised up down movement of top idler roll which moves up and down in the centre of the two lower driven rolls.

**Optional:  
Cone Rolling Attachment.**

Maximum plate thickness:	6 mm
Maximum plate width:	2500 mm
Plate yield limit:	245 MPa
Rolling speed:	4.5 m/min
Upper roll diameter:	170 mm
Lower roll diameter:	160 mm
Center distance between two lower rollers:	250 mm
Main motor power:	5.5 KW
Auxiliary motor power:	2.2 KW
